Luminus appoints Jim Miller as Executive Vice President of Sales and Marketing

Frankfurt, Germany, Light + Building, (March 28, 2014) - Luminus Devices Inc., a global manufacturer of high-performance LEDs, announced today the appointment of Jim Miller as Executive Vice President of Sales and Marketing.

Prior to joining Luminus, Mr. Miller was the Chief Sales and Marketing Officer at Bridgelux, where the company experienced strong revenue and market expansion under his leadership. Jim also served as the President & CEO of TerraLUX Inc., and was an integral part of establishing the company and securing early stage venture capital financing to fuel the growth of the company. Previously, Jim held the position of Vice President of Global Geographic Sales at Philips Lumileds where he was responsible for worldwide sales of all Lumileds SSL illumination products.

According to Mr. Miller, "Luminus is a company that is poised for tremendous growth. Its products and people are outstanding. Specifically, the new illumination COB products represent best in class performance and greatly increase the portfolio of the company. I am thrilled to be joining the organization and contribute to its success."

"We are committed to world class execution in all phases of our business and very pleased to have Jim on board to lead our commercialization efforts," said Dr. Decai Sun, Chairman and CEO of Luminus Devices.

Jim Miller will be attending Light + Building in Frankfurt, Germany from March 30 – April 4, where Luminus will be exhibiting in Hall 4.2, Stand G02 at Light + Building. Please visit <http://www.luminus.com> for more information about Luminus.

About Luminus Devices, Inc.

Luminus Devices, Inc develops and markets Solid-State Lighting solutions to help its customers migrate from conventional lamp technologies to long-life and energy-efficient LED illumination. Combining technology originated from the Massachusetts Institute of Technology (MIT) with innovation from Silicon Valley, Luminus offers a comprehensive range of LED solutions for global lighting markets as well as high-output specialty lighting solutions for performance-driven markets including consumer displays, entertainment lighting and medical applications. Luminus Devices is headquartered in Billerica, Massachusetts and has R&D facilities in Sunnyvale, CA.
